MICELLE
THERAPEUTICS

PATIENT DISCUSSION GUIDE

Prepare for your visit.

A short guide to help you have a clear conversation with your care team about Micelle 60.

01 Before your visit

- Write down every medicine and supplement you take.
- Note allergies, recent symptoms, and changes in your health.
- Bring the name of your care organization and the best way to contact you.
- Do not stop or change a medicine unless your care team tells you to.

02 Questions to ask

- What is the goal of adding Micelle 60 to my care plan?
- Could it interact with any medicine or supplement I take?
- What should I watch for, and who should I contact if I have a concern?
- How will my care team review whether the plan is still right for me?

03 What to record after the conversation

Plan
What you and your care team decided.

Follow-up
When the next review will happen.

Contact
Who to call with a health or product concern.

Micelle 60 status
